#### **Description**

Fax: 419-626-5477

White Elastomeric Roof Patch is a 100% acrylic elastomeric emulsion patch material designed for a variety of roof repairs including cracks, seams, skylights, vents, and metal joints.

#### **Uses**

A variety of roof surfaces including metal, mobile homes, aged aluminum roof coatings, concrete, campers/RV's, and more.

#### Coverage

Dependent upon depth and width of areas to be repaired.

# **Directions**

**CLEAN ROOF-** Clean Roof - Sweep off all dirt, dust, and debris. Remove rust, mildew, oil, grease, or other foreign material on the surface. Allow freshly applied asphalt roofs to cure a minimum of 4 weeks prior to applying this coating. Scrub roof with SealBest Concentrated Roof Cleaner or bleach solution (1 part chlorine bleach and 3 parts water). Rinse thoroughly and allow to dry.

APPLYING ROOF PATCH- Stir pail thoroughly. With a 4-inch wide paint brush, apply a liberal amount of Elastomeric Roof Patch. Apply Roof Patch 6-inches wide along cracks, seams, or vent areas. Roll Reinforcing Fabric into wet roof patch. Smooth out fabric with paint brush. While material is still wet, brush another coat of Roof Patch over the Reinforcing Fabric. Make certain the fabric is completely embedded into Roof Patch material. Allow Roof Patch material to dry thoroughly before applying White Elastomeric Roof Coating.

#### **Drving Time**

Allow up to 24 hours for product to dry, depending upon weather conditions and thickness of application.

### Clean Up

Wash tools with water before material dries.

## **Important**

Read entire label before using. Application temperature must be a minimum of 60 °F and rising. Do not apply when temperature is expected to drop below 60 °F within a 24 hour period. Be sure to wear eye protection, gloves, long pants, and long sleeves when mixing and applying SealBest materials. In areas where dew or fog accumulates in the early evening, it is best to coat in the morning. Stop coating by early afternoon (3:00 pm) to prevent wash off, which will occur if dew, fog, or rain arrive before coating dries. Do not apply if rain is imminent or forecast within 24 hours of application.

#### **Precautions**

- · Do Not Heat OrThin
- Do Not Freeze
- Do Not Store At Temperatures Below 50 °F

## **Safety And Environmental Precautions**

- · Refer To Material Safety Data Sheet Before Using
- · For Exterior Use Only
- Apply In A Well Ventilated Area
- · Close Container When Not In Use
- Environmental Information Is On The Material Safety Data Sheet
- Do Not Reuse Empty Container
- Volatile Organic Content (VOC) Is 100 Gm/Liter Max
- Keep Out Of Reach Of Children
- Avoid Breathing Vapors And Contact With Eyes And Skin. Do Not Take Internally
- · Wear Eye Protection And Gloves When Applying
